## **Executive Summary**

The NPTF is an internationally unique funding mechanism to support Nepal's peace process after the Comprehensive Peace Accord in 2006. It was established in January 2007. The operation of NPTF is an on-budget activity that is financially supported by Government of Nepal (GoN) and seven donors and is operated by the Peace Fund Secretariat (PFS) of the Ministry of Peace and Reconstruction (MoPR). All projects financed through NPTF are categorized into four different clusters.

During this year, the regrouping of the Maoist Combatants on March, 2012 led to selection of voluntary retirement (VR) by 13,922 combatants, rehabilitation package by 6 combatants and integration to Nepal Army by 3,123 combatants.

25,000 Internally Displaced Families have been supported for subsistence, transport, incidentals, education for children, reconstruction or maintenance of damaged houses since September 2007. 256 conflict affected people with disabilities have been supported this year through physiotherapy sessions which include occupational therapy and psychological therapy services.

Out of 100 planned police units, 95 have been reconstructed in first phase of Police Unit Reconstruction project. Two umbrella projects on implementation of National Action Plan on UNSCR 1325 and 1820 with a budget of NPR 300 million in the first phase and NPR 300 million in the second phase were approved by the Board.

Election Commission Nepal reported that a total of 10.8 million voters have been registered so far and the registration process is continued. Radio Nepal produced 17 units of public debates and peace reporting from 17 conflict affected districts.

A series of different sorts of meetings were held during this reporting period for making crucial decisions related to technical appraisal and approval of new projects, discussion on progress of the fund and the projects and capacity development of MoPR, including PFS. NPTF Board meetings approved 6 special projects on implementing National Action Plan on UNSCR 1325 and 1820 along with other 7 projects. Further, NPTF priorities setting workshop was conducted on 15th June, 2012 where future priorities were set up with the joint efforts from Government and Donor Groups and discussions were done along the lines of review recommendations.

Based on the recommendation of the joint GoN-DG review, the mandate of NPTF has been extended for three more years till January 2016. The work plan based on PFS responses to these recommendations have been approved by the Board and is in the process of implementation. Further, as a part of regular joint monitoring visits, Government-Donor-UN visits were held 4 times during this year that marked a positive step forward in terms of more frequent and regular monitoring of the NPTF projects. Similarly, the external monitoring team from Scott Wilson Nepal has completed the first and second phase of external outcome monitoring, along with social audits of 23 police units and LPCs and IDPs in 15 districts. The recommendations made by joint monitoring visits and external monitoring were shared among all relevant stakeholders and Implementing Agencies and consulted time and again for the follow ups of the necessary actions to be taken.

For the first time the PFS has staffed all its approved positions. Additional strength has been acquired by contracting a number of consultants in key support positions. Further, NPTF is continuously updating its website and has also initiated communicating to the various print and audio visual media, following its Board meeting about the decisions made in the meeting, while disseminating the NPTF documentary to the wider population in Nepal through these media channels.

Till date, NPTF has financed a total of 53 projects; of these, 24 projects have been completed and 29 projects are ongoing. These projects have supported in various sectors financed under four core clusters. The table below shows the details of the status of the projects financed through NPTF and overall budget allocation.

As a part of good governance, accountability and strong communication, NPTF/PFS prepares four monthly reports following the Joint Financing Agreement (JFA) formats and shapes out third four monthly report as an annual report since its establishment; submits to the government and donor groups and shares with all relevant stakeholders. This report outlines the progress of NPTF from 17 July, 2011 to 15 July, 2012 and is shaped as an Annual Report for the fiscal year 068/069 BS.

The financial Annexes to this Progress Report have been reformatted to include additional data and to be more informative, while respecting the basic layout and intentions of the JFA. Considerable effort has been invested in improving the collection, validation and presentation of the data in these annexes, however there remains some difficulty in disaggregating data from a small number of projects. We will continue to work on addressing this issue. Further steps are being taken to continue this progress, including developing automated tools to improve the accuracy and timeliness of project data. The EU TA has commenced the general financial training that is an essential element of improving financial reporting, and plans are being developed to expand on this initiative. Various actions have been initiated that strengthen technical aspects of managing the NPTF including consolidating the various FCA accounts into one, developing a memorandum FCA account template for oversight by the PFS, and improving budget requests submitted with project proposals.

Some IAs have reported that they had to face challenges due to delay in getting Authority letter and delay for fund release. They have also pointed out the constraints caused by the level of participation, attitude and political environment. Due to these reasons, some of the projects have been delayed. Where risks have been identified, or funding delays have been experienced, IAs have indicated their intentions for adjusting project plans to compensate. NDF has reported that they have received claim additional CADPs who are not recorded in MoPR and cannot be addressed through this project. Election Commission reported that many eligible voters are living outside the country and cannot be reached through existing voter registration system. Most of the risks/challenges and constraints have been discussed and necessary actions have been taken.

#### 1 Introduction

Nepal Peace Trust Fund (NPTF) was established in January 2007 as an internationally unique mechanism to support the vision and implementation of the Comprehensive Peace Accord (CPA). The operation of NPTF is an on-budget activity that is financially supported by Government of Nepal (GoN) and seven donors (Switzerland, EU, DFID, Germany, Finland, Norway, and Denmark) and is operated by the Peace Fund Secretariat (PFS) of the Ministry of Peace and Reconstruction (MoPR). In line with the provisions stipulated in

the Joint Financing Arrangement (JFA), Program Document (ProDoc) and the Project Management Manual, this second annual report is produced by Peace Fund Secretariat (PFS), in lieu of 15th Four Monthly Progress Report.

All the projects financed through NPTF are categorized into four clusters namely:

Cluster 1: Cantonment Management and Integration/Rehabilitation of Combatants

Cluster 2: Conflict Affected Persons and Communities

Cluster 3: Security and Transitional Justice

Cluster 4: CA and Peace Building Initiatives at National and Local Levels

The reconstruction of physical infrastructure destroyed during conflict is crosscutting theme.

Nepal Peace Trust Fund
(NPTF) is a unique
mechanism to support
the vision and
implementation of the
Comprehensive Peace
Accord (CPA). Its goal is
"A sustainable peace in
Nepal through effective
implementation of the
CPA and subsequent
peace agreements" and
has financed 53 projects
through 4 clusters.

The current scenario of the nation has become volatile after the dissolution of Constituent Assembly on 27th May, 2012. The context for some of the projects has become different and the pace of the projects has been affected. The progress on peace process is hindered due to disputes among major political parties. Though these contexts pose many challenges to smooth implementation of project activities, NPTF by funding various projects across four clusters has been able to contribute to accomplish its goal "A sustainable peace in Nepal through effective implementation of the CPA and subsequent peace agreements"; in general.

## 2 The Clusters of the NPTF and its projects

Since the establishment of NPTF in 2007, it has financed a total of 53 projects; of these, 24 projects have been completed as of 15 July 2012. During last fiscal year, 16 projects were ongoing. Additional 13 projects under different clusters were financed during this year. The overall ongoing projects for this fiscal year have become 29. The details on the progress of ongoing projects are given in chapter numbers 7 and 8.

#### Voice of a female combatant soldier in the Hattikhor Cantonment

A female combatant says, "We are satisfied with the moderate type of basic facilities here in cantonment. Though in comparison with Nepal Army, we are having nothing; but, if it is compared with our past life then it has to be appreciated. For example, during the conflict period; we used to stay in Thakal (shade made up of a kind of shrub) and now at least we are living in wood and concrete house. How long we can stay in this way, it is a different question." (Name not disclosed)

The detailed information about the projects funded by NPTF since 2006 under this cluster is presented on the table below. Please note that projects 1/07, 1/16, 1/17, 1/18 and 1/20 are yet to be completed because of delayed progress in integration and rehabilitation of MACs. The IAs are advised to submit extension request with justification.

#### **Priorities Setting Workshop:**

NPTF priorities setting workshop was conducted on 15th June, 2012 where future priorities were set up with the joint efforts from Government and Donor Groups and discussions were done along the lines of review recommendations.

## 5 Monitoring and Evaluation

#### 5.1 Joint GON DG Review

The Joint GON DG Review, with a team of 2 international and 3 national consultants started during this reporting period with the following objectives:

- Assess the relevance and effectiveness of NPTF as an instrument in the current phase of the peace process;
- Assess the strengths and weaknesses of the NPTF's governance, technical and financial management structures and processes;
- Assess the impact of NPTF and NPTF funded projects on the peace process;
- Provide recommendations on the above and advise GON on a potential NPTF extension beyond Jan 2013.

It was a second external review of NPTF, which submitted final report on 8th April, 2012 with key recommendations for extension of NPTF, subject to which further recommendations were made to improve Governance and Institutions, Public Financial Management (like improvement of financial management system and amendments to JFA and PFOR), Conflict sensitivity, Gender and Inclusion, Donor role and relations etc. Based on the recommendation of the review, the mandate of NPTF has been extended for three more years till January 2016. The workplan based on PFS responses to these recommendations have been approved by the Board and are being implemented.

Following the review recommendation, NPTF is extended for 3 years based on joint consultations among Government and Donors. As review mission had suggested, key positions at PFS such as Cluster Focal Person, Communication Officer, M&E Officer, Finance Consultants have been recruited. Additionally, qualitative observations of NPTF projects related to conflict sensitivity, gender and inclusion are being addressed through external monitoring of NPTF. Communication Consultant has also been identified to develop Communication and Information Strategy. During the priority setting workshop, potential needs have

been examined in neglected areas such as projects targeting violence against women as a conflict-related issue, and focusing on marginalized groups and conflict affected people and communities as recommended by the review.

#### 5.2 Perception Survey

In preparation for the joint GON-DG Review, the third annual perception survey was conducted with three groups of stakeholders viz., Ministry of Peace and Reconstruction, including PFS, donor representatives and implementing agencies. The findings reveal that out of 24 respondents, 14 said that NPTF is doing well, 3 said its doing brilliantly and 7 said its doing fairly, whereas no one said its doing poorly.

#### 5.3 Joint Monitoring Visits

As a part of regular joint monitoring visits, Government-Donor-UN visits were held 4 times during this year that marked a positive step forward in terms of more frequent and regular monitoring of the NPTF projects. Joint visits to both UNPFN and NPTF project sites were initiated following the recommendations of earlier visits and has proved to be a useful way of sharing and learning for both the NPTF and the UNPFN. The reports of all the visits written jointly are available at PFS on request and the recommendations have been followed up jointly.

The joint monitoring visits were carried out in September 2011 to Palpa, Rupandehi and Chitwan, December 2011 to the NPTF project sites at Nawalparasi and Chitwan districts; during February 2012 to the NPTF and UNPFN sites at Bardiya and Banke and during June 2012 to the NPTF projects sites at Kaski. The first visit was jointly carried out with UNPFN to visit the projects funded by NPTF at District Election Offices, Police unit reconstruction sites and Local Peace Committees and UNPFN funded project on reparation to conflict affected people and UNIRP programme. The second visit focused on observation of regrouping of the Maoist Army combatants. The third

"Joint monitoring team interacts with community women living around newly constructed police unit in Mujhung, Palpa (September 2011)"

visit assessed the status of Local Peace Committee, met with the implementing partners of National Disability Fund, interacted with the peace building group formed by NEFDIN and UNPFN projects on Documentation of Sexual Violence during conflict and monitoring, reporting and response to conflict related child rights violation. Further, the fourth visit was made to assess the status of LPC, met with the staffs of NDF, NFDIN, ECN and Radio Nepal and observed the progress up to that day. While the team appreciated the progress at district level, they recommended specific actions for improvement of the quality of the projects which have been incorporated into the joint report produced following the visits.

These recommendations were shared among all relevant stakeholders and Implementing Agencies and consulted time and again for the follow ups of the necessary actions to be taken. The four monthly reports of the IAs and consecutive joint monitoring visits have ensured that most of the recommendations have been addressed with necessary actions. NPTF/PFS is frequently following up the progress in this regards.

The following are some examples of recommendations made by the joint monitoring visit reports have been implemented by the relevant stakeholders:

- The monitoring visits have gradually been systematized with joint visits to both NPTF and UNPFN sites when possible, development of TOR for joint visits, organization of briefing sessions to participants of field visits before leaving and debriefing sessions for sharing impressions and preparing notes for joint reports.
- Specifications for some accommodation of the police posts were found to be smaller than basic humanitarian requirements, and therefore have been redesigned to fulfill basic criteria, especially for the women's cells.
- The GoN/DAG have jointly visited the Nepal Police (NP) projects to monitor the compliance of public procurement laws. Similarly, the suggestion to conduct procurement audit has been carried out through technical audit done by National Vigilance Center.
- Following the recommendation by monitoring team to consult with local communities where they are
  pulling down buildings built with community support, an existing building that was built by the local
  communities has not been demolished, despite the plans to do so.
- The clarification on avoiding potential overlap of funding from NPTF and ICRC for supporting CADPs, was obtained from NDF. While NPTF support focused on the CADPs listed in MoPR, ICRC support was provided to CADPs, who had been left out in the MoPR list.
- NEFDIN was suggested to implement its activities through Peace Building Network Committee (PBNC) rather than bidding and contracting projects to individual implementing agencies. NEFDIN is redesigning the project to propose in its extension phase. NEFDIN also started orientation programs to PBNC following the suggestion to clarify PBNC of their roles and responsibilities.

#### 5.4 External Outcome Monitoring

The external monitoring team from Scott Wilsons Nepal has completed the first and second phase of external outcome monitoring, along with social audits of 23 police units and LPCs and IDPs in 15 districts. The final reports of the first phase was submitted in November 2011 and the second phase in June 2012. The findings and recommendations from the monitoring were shared with NPTF Board, Implementing Agencies and discussed in GON-DG Meetings.

Some of remarkable outcomes of NPTF projects outlined in these reports are as follows:

- Satisfactory provision of basic facilities, infrastructures and services were provided during the protracted period of stay of combatants in the cantonments.
- Regrouping process that was carried out professionally within stipulated time demonstrated the ability of SC to accomplish task at par with international levels.
- There is silent but visible appreciation for recognition of the plight of the IDPs by the government and for emphasizing resettlement process.
- Enhanced feelings of security of communities after reconstruction of PU building were evident.
- There is notably increased level of economic and trading activities due to increased level of security in areas of PU reconstruction.
- Number of female security staff has significantly increased in the reconstructed PU offering more gender sensitive services.
- Interest in registering for voter list has resulted in increased number of citizenship recipients.
- Encouraging women participation is visible in voter registration process while the overall level of awareness is also very strong.
- Understanding in role division and good coordination among the LPC members has enabled some LPCs to be active despite resource limitations.

• Initiation of dialogue through Peace Building Network Committee (PBNC) in district level has begun and has raised prospects for resolving ethnicity based disputes, but the impacts are still to emerge.

Some implementation issues were also identified during the monitoring, which are as follows:

- High Level of dissatisfaction and frustration observed among combatants while leaving the cantonment.
- Poor level of resettlement of IDPs is mainly due to economic crisis, delinking of network, psychological problem (trauma), social exclusion and feeling of insecurity.
- Poor level of awareness on Mine Risk among the community still persists.
- The sense of security from mines has largely increased, but continued sporadic incidents of IED has upheld the feeling of insecurity in selected districts.

The recommendations provided to PFS in the monitoring such as 'role and strategies of the NPTF needs to be redefined in the changed context of most of cluster 1 activities accomplished and peace process moving forward to further streamline its projects within the broader framework of CPA' has been considered by NPTF in priority setting and approval of new projects. The other recommendation to localize NAP activities with sufficient orientation to all related stakeholders at the local level will be addressed through the projects on implementing NAP 1325/1820 by six line Ministries.

#### 5.5 Communications

NPTF made a breakthrough in communication by re-launching its website <a href="www.nptf.gov.np">www.nptf.gov.np</a> during a ceremony to mark 5 years of its anniversary. The website offers important information on news, reports, strategic documents, gallery of photographs of NPTF activities and more importantly, a link to YouTube videos of interviews with NPTF related government officials, donors and beneficiaries. The 5 year anniversary brought together relevant group of audiences and presented a documentary highlighting the achievements of NPTF during five years of its operation. A panel discussion among five prominent figures in peace building from government, donor, UN, civil society was facilitated by independent journalist.

An assessment for developing a communication strategy was done by a regional consultant, the final report of which was submitted in July 2012. The scope of assignment was to clarify the steps necessary for the PFS to develop a strategy in the months to come. The report provides feedback on existing means of NPTF communication, its strengths, weaknesses and potential improvements; outlines a path towards developing an NPTF communication strategy, including key issues to be addressed with regards to both the content as well as the process side; and provides a draft TOR and advertisement for an In-Process Consultancy and propose selection criteria for the identification of a Nepalese service provider to support the PFS in the mid-term.

NPTF also initiated communicating to the various print and audio visual media, following its Board meeting about the decisions made in the meeting, while disseminating the NPTF documentary to the wider population in Nepal through these media channels. Meanwhile, a local level dissemination of NPTF documentary and key voices from the field was done in Kaski, alongside the joint GON-DG monitoring visit in Kaski district, Pokhara and Sindhupalchowk district, Melamchi. This dissemination was organized jointly with the Kaski district LPC and was followed by interaction with the audiences on their awareness about NPTF and LPCs.

#### 5.6 Public Financial Management (PFM)

The Joint GoN-DG Review suggested substantial improvement in PFM of NPTF. In similar lines, EU-funded project delivered its Inception Report and diagnostic evaluation of NPTF/PFS financial management at the beginning of the reporting period. This Report noted that the first priority is improving the quality and timeliness of the four-monthly reports prepared by the PFS to provide donors and the GoN with an overview of NPTF transactions and financial position, and the progress of the projects it finances. Beyond reporting, various other reforms were suggested that would improve NPTF financial governance.

- Improving budget management in field project offices;
- Relocating internal audit to a dedicated team with a wider scope that includes all NPTF operations;
- Requesting the Auditor General to include performance audits of NPTF-funded projects;
- Reducing the number of non-freeze accounts; and
- Reimbursing expenditures rather than advancing lump sums.

The Inception Report suggested that these improvements to NPTF financial management could be considered in three phases:

- 1) Immediate improvements will address some of the weaknesses in the NPTF Progress Reports produced by the PFS.
- 2) A further set of reforms that could potentially be implemented within the next 9 months.
- 3) Some of the reforms are more fundamental and were designated as longer term, to be addressed during subsequent phases of the EU's support to financial management in the MoPR.

This approach was adopted by the stakeholders together with a work plan oriented towards Immediate and Short Term objectives. A draft Interim Report #1 from the EU project produced at the end of the reporting period indicates that the NPTF is making good progress towards its objectives of improving PFM:

- The Progress Report formats and content have been improved significantly, although room for additional improvement remains. Steps are being taken to continue this progress, including developing automated tools to improve the accuracy and timeliness of project data.
- The PFS has commenced the general financial training that is an essential element of improving financial reporting, and plans are being developed to expand on this initiative.
- Various actions have been initiated that strengthen technical aspects of managing the NPTF including
  consolidating the various FCA accounts into one, developing a memorandum FCA account template
  for oversight by the PFS, and improving budget requests submitted with project proposals.
- Financial management capacity is being improved by developing PFS-specific financial procedures and job descriptions, and the PFS now has a solid financial management team in place to better fulfill its JFA obligations.
- Progress has been made in terms of expanding financial management concerns into other PFS functional areas.

Given the progress achieved to date there is a high level of confidence that continued progress will lead to achievement of all planned objectives in terms of improving PFM performance of NPTF.

# 7 Programme Performance Report for Fiscal Year (2068/069) from (Mid. July, 2011) to (Mid. July 2012)(Reference to Para 54/Annex E of JFA)

# Summary

Data gathering for this reporting period was strengthened to capture additional information about projects' performance. As this is unfamiliar territory to IA project managers, the data reported is not complete. However, a good start has been made on which we will build in future reports. The following comments summarise the information provided to PFS, with details being presented in a tabular format below.

During the reporting period 29 projects were in progress:

| Cluster 1 | 7 projects  |
|-----------|-------------|
| Cluster 2 | 4 projects  |
| Cluster 3 | 11 projects |
| Cluster 4 | 7 projects  |

Substantial progress towards the programme goal has been achieved in Cluster 1, limited progress in Cluster 2 largely due to delayed release of funds, and good progress in Clusters 3 for the projects financed at earlier of this year. But, the progress has not been achieved in tangible version for the projects signed at the end of this fiscal year. Similar circumstances are applicable for the projects financed under cluster 4, but the overall progress under this cluster is satisfactory.

Implementing Agencies are at beginning stage to identify risks and evaluate their impact, particularly with respect to Cluster 2, 3 and some of the projects of cluster no.

4. Significant risks were identified in relation to some projects as well.

Where risks have been identified, or funding delays have been experienced, IAs have indicated their intentions for adjusting project plans to compensate.

Day/date : Wednesday, 16 May 2012

**Time** : 14.00 Hrs.

#### Agenda 1: Selection of the Capacity Development Manager

#### **Discussions:**

- There were seven applicants for this position. The Shortlisting Panel chaired by Mr. Bharat Poudel, Joint Secretary, MoPR had shortlisted four candidates out of them on 04 May 2012.
- The Interview Panel chaired by Mr.Udo Weber, German Embassy had conducted interview of all shortlisted candidates on 15 May 2012. The Panel has submitted their assessment with scores for each of them for final selection by the Steering Committee. (evaluation attached)
- While it was acknowledged that the selection process was fully in line with GIZ standard procedures, it was at the same time emphasized that the result of the selection process further exacerbates the lack of staff diversity at MoPR, which is particularly debilitating considering the function of the Ministry and of the CD Manager. Other donor organizations such as SDC follow a stronger policy of inclusivity, and in a case such as this one, would require a fresh process of advertisement in order to ensure a range of candidates reflecting the diversity of the society of Nepal.

#### **Decisions:**

- Based on the evaluation by the Interview Panel, and considering that the position is initially for 6 months only, Shyam Sunder Sharma shall be finally selected for the position of the CD Manager.

# Annex 6: Flowchart on Processing Concept Notes and Project Documents at NPTF (revised, based on the new Peace Fund Operation Rules) in June 2012

## Nepal Peace Trust Fund 7 Steps from Project Idea to Implementation Agreement

## **Description of Flow Chart**

## Step 1: Concept note

<u>Project Idea:</u> Except for the projects that have to be implemented by specific agencies, PFS calls for concept notes of potential projects from Implementing Agencies (IAs). In this regard, involvement of non state actors is also emphasized to implement the NPTF financed projects.

- 1. The potential IAs have to submit a brief concept note/project idea in a standard format to the PFS. The project should be designed to make strategic contribution to the objectives of the NPTF and overall contribution to peace building.
- 2. Evaluation of the concept notes are done by the Core Cluster comprising of Director PFS as the convener, Joint Secretary MoPR as the co-convener, Programme Management Officer, PFS as the Secretary and representatives from donor groups and UN as the members.

  The applicant is notified of the Core Cluster's decision through Peace Fund Secretariat.

## Step 2: Project document

- 3. The applicant is asked by the PFS to develop full project document only if the concept note is approved by the Core Cluster.
- 4. The project document should be developed in a standard format based on the approved concept note and has to be timely submitted to the PFS. PFS works together closely with the Implementing Agencies in developing the project documents for ensuring the quality of these documents.
- 5. The project documents are reviewed by the Sectoral Clusters that is chaired by a Joint Secretary and invites representatives from donors, civil society organizations and experts in relevant field.
- 6. Once the comments from Sectoral Clusters are addressed in the project document, it is submitted to Technical Committee (TC). The TC is chaired by the Secretary of MoPR and comprises of representatives from relevant government agencies such as Ministry of Finance, National Planning Commission, Office of Financial Comptroller General and representatives from civil society and the Director of NPTF as the member secretary. If deemed relevant, the TC recommends the project document to the Board for approval.
- 7. The Board, inclusive of five major political parties, chaired by the Minister of Peace and Reconstruction, makes the final decision on the project document.

<u>Implementation Agreement</u>: The applicant is notified of the Board's decision via PFS. In case the project is approved by the Board, PFS and the implementing agency enters into an implementation agreement.
